

Associate Futurist - ART

Gladis Fayth graduated from Nanyang Academy of Fine Arts (NAFA). Her passion can be seen in her dedicated years in teaching the arts in the government schools and the various art studios in Singapore. She believes in harnessing the innate potential in every young person, encouraging and nurturing them in their artistic talents.

Equipped with the strong fundamentals in arts and strong impartation skills, Gladis Fayth is able to engage the children at a deeper level of self-discovery and awareness. Our Futurist for ART believes that with arts education and knowledge, a child's perception could vary differently and thus a child will learn to see things with a certain aesthetic value.
